GIS : Digitalization of Chase through Time in QGIS

Summary

Experience

Volunteer : Project Incharge: Digitalization of Chase through Time in QGIS at Stafford County Council

October 2016 - February 2017 (4 months)

Digitization of Chase through Time project in QGIS will provide Stafford council a track record of developments during last 300 years around Cannock Chase area and surrounding towns.

This project will help Stafford council review all this data through maps in an interactive way and allow the council to share this information to public to increase awareness of our History among Stafford community.

We will also analyse the findings in present context and see if they are in interrelation with each other.

GIS Officer at ERDF

2013 - 2015 (2 years)

Cadastral Project at EDF office ('Le Capitole' at Nanterre 92000, FR) erdf.fr

Worked on planning and modernization of National-Electric-Network in geospatial database.

Main Responsibilities:

- Undertake & support the management of drawings (aerial and concealed national-electrical-network) in appropriate core systems (GIS SMALLWORLD, Micro station, Pacific, Caribe, scan 25, Raster plans, Google map and Geoportal) in accordance with detailed ERDF specifications to ensure accuracy, efficiency (QA) and integrity of existing and future drawing records and maintain equilibrium different scales.
- Managed relationships with respective regional-planning department within ERDF to keep them up to date with data progress and reported the anomalies in aerial or concealed electrical network and proposed necessary corrective actions.
- Provided updated detailed excel sheets to manipulate & re-evaluate the amount of network actually present between the communities for accountable process, as it gave measurable data to formulate facts easily.

Real Estate Analysis

2007 - 2013 (6 years)

Studied real estate trends in districts of Paris for the residential market and its evolution over 7 years to 2013

- Identified the emerging areas, growth patterns, pricing and prospective returns for property investment
- Studied the factors affecting residential price and price evolution.

The property market data was taken from a variety of sources available (research case studies & property particulars)

Integration in France :-)

Architecte

2004 - 2007 (3 years)

rachanaconstructions.com

I have developed and designed residential complexes, considering urban characteristics and customer's requirements. Used AutoCAD, Excel, Powerpoint, 3D max, Photoshop and CorelDraw.

- Architectural aspect: Approve the design from local authority and providing technical drawings as required.
- Marketing collateral: Handled Marketing campaign: Brochures, Posters, Paper Advertisements.
- Client Management: Managed the bookings. Handled the payments. Made desirable changes in interior layouts. As per choice of material recalculate the payments.

Assistant Architect

2001 - 2004 (3 years)

www.virendrakhare.com

- Depending on clients requirement, studied the market and collected Data which helped in Planning and proven effective for the project.
- Worked in designing, detailing, drafting, submission drawings for various projects.
- The projects were residential, commercial and Administration buildings of various magnitudes.

Education

University of Oxford

Mapping, Spatial Data & GIS, 2016 - 2016

Activities and Societies: Mapping, Spatial Data & GIS

Bachelor of Architecture, Nagpur University, India www.ladarch.com

Bachelor's Degree, Architecture, 1996 - 2001
