Architect & Urban Planner

---

## Summary

I am a professionally qualified post graduate with over seven years of varied experiences working with local government, international organisation, development authority and multi disciplinary firm specialising in Spatial Planning, Planning Policy, Master Plan, Landuse Plan, Urban Regeneration and Project Management, Risk Mitigation and Disaster Management.

I also possess sound knowledge and experience of AutoCAD and basic GIS for mapping of spatial data. I have gathered varied experiences of analysis, documentation and presentation skills over the last ten years. I am highly proficient in using Windows based applications including Microsoft products.

I have got hands on exposure of working in cross culture environment and dealing with multi disciplinary teams.

---
